1936

VARIETY LIST OF EXHIBITION, JAPANESE
COMMERCIAL, ANEMONE, POMPON, SINGLES
AND BUTTON CHRYSANTHEMUMS GROWN
AS A HOBBY AND SURPLUS PLANTS
SOLD EACH SPRING AT POPULAR
PRICES

BY

F. A. SPIVEY

Box 574

Montgomery, Alabama

PREFACE

Some years ago I became enamored with the stately, large incurved types of chrysanthemums as grown by the florists, and began experimenting with growing these big-flowering varieties in the open garden here. This soon developed into quite a hobby, and finding it expensive to be constantly acquiring new (to me) varieties to try out, I found it not only expedient but necessary that I dispose of my surplus plants each spring at popular prices, to help make my hobby self-supporting. This explains the little advertisement of mine that you have noticed. I have found that I can grow them fully as large as the average hothouse grown mum, but with not quite the "finish" that is possible under glass. This I have done for several years in my own garden here, right out in the open. I have grown practically all of the better known big varieties, and many of the newer ones, and honestly believe I have as good a private collection of these varieties as can be found in the Southeast. I have had worlds of pleasure and satisfaction in producing these big blooms in the open garden, but found out that many new and highly recommended big varieties did not always come up to expectations; that it is hard to improve upon such grand old varieties as the Turners Pocketts, Snow White, and many others, and still retain their size and other good points. This I believe is because this type of chrysanthemum is much farther along in its stage of evolution, and while all varieties have features that could be improved upon, the higher a variety is in the scale of evolution the harder it is to obtain a better hybrid. For this reason additions to the truly "big" class will be small. On the other hand, however, the new hardies and pompons offer an almost endless field for the hybridizer, and the anemone types add the possibility of marvelous color combinations due to their inclination to have the disc one color and the ray florets another. These latter types are coming into great favor, and I intend to grow many of them myself this year, even though they lack the size and grandeur of my first choice.

TERMS OF SALE

Prices quoted herein are for cash with order, and include packing and delivery by prepaid parcel post.

Large orders at special prices will go by express COLLECT.

No order accepted for less than \$1.00 unless accompanied by 20 cents additional to cover the cost of packing.

I remove all plants at flowering time that appear to be untrue to name, but being human an occasional mistake will occur, in which event I will only be responsible to the extent of replacing the plant or refunding the purchase price.

Unless specifically requested not to do so, I will ship a similar variety to one ordered when the variety ordered is sold out. A list of "Second Choice" varieties is helpful in such cases. When requested not to do this, the purchase price of any variety not furnished as ordered will be refunded.

GENERAL INFORMATION

My plants are open-grown, and I personally select, label and pack each order.

Shipments can be made earlier than the middle of April, but except for the very southern portion of the United States earlier shipments are not desirable. The latter half of April, all of May and the first half of June is the best time.

Each order of plants will be dipped in a nicotine and rotenone spray mixture immediately prior to packing which eliminates even the possibility of any insect pest.

Mimeographed cultural directions will be included in each package of plants shipped.

Bud selection and blooming dates are for this locality and must be taken as approximations only. Further north they will be advanced, and delayed as you go south. A variety will be matured and gone here by the time it is in bloom in New Orleans.

Unusually hot weather in September and October will lighten the colors of most mums, and this should be borne in mind when ordering the early varieties. As an example last fall the old standard early pink ENCHANTRESS was nearly white, due to unusually hot sun in October. Mid-season and later varieties are not affected.

CHRYSANTHEMUMS—Standard Varieties

VERY LATE INTRODUCTIONS THAT WITH ME HAVE MADE GOOD.
25 CENTS EACH—VERY LIMITED STOCK.

MRS. HENRY R. REA—An incurved pure white with rather pointed petals that produced an 8-inch bloom with me; unusually large foliage right up to bloom, and strong stem. Best bud early in September; blooms October 25th.

AMBASSADOR—Known as the "Early Turner" due to its very large size. A pure white of perfect incurved form, maturing an 8 inch bloom around the end of October from an early September bud. Undoubtedly one of the largest and best whites for October.

SEMINOLE CHIEF—An exhibition chestnut bronze; reflex petals that are unusually long; very dependable for an exhibition; Has produced 9-inch blooms; Matures the end of October from a September 1st bud.

GOLDEN TINTS—A very large 8 inch bloom of light yellow maturing middle of October from an August 15-20 bud. Wonderful strong stem and perfect foliage, but should be planted rather early to attain height by blooming time.

COLUMBUS DISPATCH—A very vigorous deep yellow variety that will attain a height of 5 feet from June 1st planting, and mature an 8 inch bloom by the end of October; Best bud Sept. 1st. I consider this the best of the new early yellow varieties.

GOLDEN MAJESTIC—A sport from the well-known variety MAJESTIC. It is a very bright yellow and has all the other qualities of its parent, medium dwarf growth, but an excellent exhibition; Large bloom maturing end of October from mid-August bud.

EDGAR STILLMAN KELLY—An unusually dependable late pure white of real large size; foliage, stem and habit of growth almost perfect; incurved glistening white bloom; September 20th bud matures bloom around middle of November.

BRONZE GLADYS PEARSON—A dark bronze sport of the ever popular variety Gladys Pearson. There are several sports of Gladys Pearson, but this strain is a true bronze. It will produce an 8-inch bloom for Thanksgiving from mid-September bud.

UNUSUALLY GOOD VARIETIES

15c each—\$1.50 per dozen labeled (Your selection.)

- SMITHS EARLY WHITE**—Blooms Oct. 8th from August bud; While not an 8 inch bloom it is undoubtedly one of the earliest good whites; inner petals incurve, outer ones reflex.
- AKSARBEN**—Bloom October 15th from first bud; a large reflex deep rose that will hold its color to full maturity; 4 1-2 ft. with straight stems.
- SUN GLOW**—Blooms Oct. 15th from mid-August bud; a bright yellow 8-inch incurved flower of perfect form. One of the best big yellow varieties for early October.
- LUSTRE**—Blooms Oct. 15th from late August bud; a pinkish lavender incurved bloom; plant early; a very popular variety owing to its color and earliness.
- MRS. H. E. KIDDER**—Blooms Oct. 15th from August 25th bud; a very early bright yellow closely surmounting an upright stiff stem; a late introduction. Very popular.
- LOUISA POCKETT**—Blooms Oct. 25th from mid-August bud; an unusually fine very early white variety from Australia; late buds show delicate pink shade; a popular variety as an exhibition.
- YELLOW POCKETT**—Blooms Oct. 25th from August 20th bud; an exhibition size yellow incurved bloom; very popular with growers specializing in extra large blooms.
- THOS W. POCKETT**—Blooms Nov. 1st from August 25th bud. Exhibition size; a clear shade of pink with incurved tips; tall grower.
- OCTOBER GLOW**—Blooms Oct. 20th from first bud; an 8-inch globe type bloom of a deep lavender shade, which color is held to full maturity; height 4 feet. The best dark lavender for October.
- OCTOBER ROSE**—Blooms Oct. 25th from September 1st bud; the largest early incurved rose pink; will produce an 8-inch bloom; large stiff stems; height 4 1-2 feet.
- CAMILLA**—Blooms Oct. 18th from Aug. 25th bud; an early rounded pure white on 5-foot stem; considered an improved Silver Sheen. A recent introduction.
- DETROIT NEWS**—Blooms Oct. 25th from August 30th bud; one of the newer and the outstanding "finds" in recent years; at first develops as an incurved showing golden reverse, gradually reflexing and exposing bronze shade. Probably has more lasting qualities than any other bronze of its period.
- KEYNOTE**—Blooms Oct. 25th; the earliest 8-inch bronze yet introduced; upper surface of petals brownish, chinese orange, while reverse is buff; 4-foot upright growth with small foliage; best bud Sept 1st.
- CHARLES W. JOHNSON**—Blooms Oct. 25th; a perfect 7-inch round ball, with excellent habits of growth; may be considered an improved Betsy Ross. Height 4 1-2 feet; best bud Sept. 10th.
- WHITE EAGLE**—Blooms Oct. 25th from first bud; an extra large bold reflexed pure white; fully equals the Turners in size; medium height.
- OLIVETTE**—Blooms Oct. 30 from Aug. 10th bud; another very recent introduction; bloom pinkish-rose, with petals irregularly incurved; extra large blooms and a favorite.
- CHEROKEE**—Light bronze that shows a rosy tint under artificial light; Outer petals irregularly reflexed while inner ones incurve showing golden reverse; Very large size and tall strong grower; Matures end of October from August 20th bud.
-

-
- HILDA BERGEN**—Blooms Oct. 30 from early September bud; a 7-inch incurved bronze flower that holds its color to full maturity; height 4 feet; handles unusually well and is very popular among the bronzes.
- OLD ROSE**—Blooms Nov. 1st from August 20th bud; a large perfect ball; very imposing; color a pleasing shade of deep pink; good lasting qualities.
- NAKOTA**—Blooms Nov. 1st from Aug. 15th bud; an exhibition variety of fairly recent introduction; bloom incurved, orange-buff in color, and of largest size. Semi-dwarf in growth.
- BOB PULLING**—Blooms Nov. 1st and is an outstanding exhibition yellow, having wide dropping petals sometimes 10 inches long; a good grower and handles well.
- ELBERON**—Blooms Nov. 1st from Aug. 30 bud. While not a very recent introduction still very popular; a bright pink; of finest incurved form; beautiful foliage and a good stem; semi-dwarf in growth. A variety easy to manage.
- WHITE ELBERON**—The white sport of ELBERON—identical in all other respects.
- YELLOW ELBERON**—A yellow sport of this popular variety; otherwise identical
- BRONZE ELBERON**—An unusually pleasing shade of bronze in this popular variety.
- WILLIAM TURNER**—Blooms Nov. 1st from Aug. 30th bud. While not a new variety, it is still surpassed in size only by a few of the later introductions; a grand incurved bloom of purest white; very imposing. Semi-dwarf in growth.
- YELLOW TURNER**—The yellow sport of this grand old variety.
- BRONZE TURNER**—Blooms Nov. 1st from Aug. 25th bud; a light bronze sport of WILLIAM TURNER and identical in other respects. ALL TURNERS are of largest size.
- PINK TURNER**—(Mrs. J. Leslie Davis) The Pink sport of this grand old variety; identical in other respects.
- GLENVIEW**—Blooms Nov. 5th; very large two-tone bloom of red and buff; inner petals decidedly incurved; outer ones slightly incurved; of exhibition size; particularly from late buds; excellent variety.
- GARNET KING**—Blooms Nov. 15th from Sept. 20th bud; a recent introduction and considered the finest red yet introduced: clear garnet with bluish black shades and having a silken finish. True reflexed type; Excellent stem and foliage.
- FRIENDLY RIVAL**—Blooms Nov. 15th from Sept. 10th bud; a late introduction and considered the best yellow for its season; very large blooms and of a very bright shade of yellow; stem and foliage unusually good; formal incurved type.
- MRS. ALEX LAURIE**—Blooms Nov. 20th from mid-Sept. bud; An incurved light pink of perfect conformation; has perfect stem and foliage; height 4 feet.
- QUAKER LADY**—Blooms Nov. 20th from second bud; large incurved orchid pink of perfect ball and shape; may be grown to 8 inches.
- HONEYDEW**—Blooms Nov. 20th from Aug. 30th bud; a bright yellow of true incurved form having a satin finish; good grower; stiff stem.
- NERISSA**—Blooms Nov. 25th from Sept. 15th bud; a perfect incurved rosy lavender bloom of wonderful size. While not a new variety it still holds its own in its blooming period and color.
- TOM BROWNE**—Blooms Nov. 30th from late Sept. bud; a very large late pure white; stiff straight stems with distinctive foliage; height 4 ft.
-

CHATTANOOGA—A pure white incurved variety somewhat like Towantic, but does not mature until around December 1st and later from bud taken Sept. 15-20. Easily makes an 8 inch bloom and is very popular for a late white.

YELLOW CHATTANOOGA—The yellow sport of the above variety; identical in all other respects.

Excellent varieties, but not so late introductions, or propagate as a faster rate and of which I have a larger supply of plants.

10c each—\$1.00 per dozen. (Your Selection). (All Varieties Labelled.)

GOLD LODE—A deep yellow of the decorative type; medium size bloom; matures early October from mid-August bud. Small foliage and popular owing to its earliness.

IMPROVED GOLDEN GLOW—An improved strain of this popular variety that attains a height of about 3 1-2 feet before setting buds; Can be had in bloom in late Sept. from July bud. but such early blooming is not recommended except for northern half of the United States, as Sept. sun will ruin blooms in extreme South.

QUAKER MAID—Blooms Oct. 12th from mid-Aug. bud; a large early white bloom; 4 1-2 feet tall; a very popular variety.

CHRYSALORA—Blooms Oct. 15th from Aug. 15th bud; the best yellow for early Oct.; largest size and perfect form, stem, and foliage; the variety shipped east from California in carload lots each fall.

JOSEPHINE LAWLER—Blooms Oct. 15th; a perfect early pink; incurved form, although petal arrangement is informal; the soft pink petals with silvery reverse makes an unusually effective flower.

GOLDEN WAVE—Blooms Oct. 20th from early Sept. bud a decided incurved bloom of bright yellow; perfect erect stem and foliage; tall grower and handles well.

CHARLES RAGER—Blooms Oct. 25th from Aug. 20th bud; a stately pure white incurved bloom, having ideal qualities; height 4 feet.

TIGER—Blooms Oct. 25th from early Sept. bud. An incurved bright yellow bloom, unexcelled for those who cannot give the highest state of cultivation; always double from any bud; very hardy.

J. W. PRINCE—Blooms Oct. 20th from Aug. 30th bud, A true incurved large bloom of a brighter shade than Chieftain and considered to be superior.

SNOW WHITE—Blooms Oct. 30 from early Sept. bud. An extra large incurved white bloom with effect line unpolished marble. By far the best second-early large white I have ever grown; can not be too highly recommended.

PACIFIC SUPREME—Blooms Nov. 1st from Aug. 20th bud. A large incurved pink bloom of even shade developing to maturity without loss of color. A very popular variety.

TREASURE ISLAND—Blooms Nov. 15th; a medium sized flower, but probably the richest bronze yet introduced; reflex bloom; easily grown and does well.

BETSY ROSS—Blooms Nov. 10th from late Aug. bud; a perfect incurved pure white possessing excellent qualities in both bloom and plant; height 4 ft.; still one of the standard incurved mid-season whites.

MONUMENT—Blooms Nov. 15th from late Aug. bud. A pure white incurved bloom of large size; strong growth and sturdy stem; height 4 feet.

-
- MISS HELEN FRICK**—Blooms Nov. 15th from mid-Sept. bud. A bright shade of lavender-pink; perfect incurved form; semi-dwarf growth; with me one of the best and prettiest November pinks.
- YELLOW HELEN FRICK**—The yellow sport of the above variety—identical in all other respects.
- WHITE HELEN FRICK**—The white sport of the above variety—identical in all other respects.
- SILVER SHEEN**—Blooms Oct. 25th. A high-rounded pure white large bloom of perfect form; has excellent keeping qualities; grown commercially.
- OCONTO**—Blooms Oct. 25th. A true white of incurved form with large blooms maturing early midseason; a very dependable midseason white.
- JOSEPHINE FOLEY**—Blooms Oct. 27th. An excellent pure white variety of strong growth and straight stiff stems.
- POLLY ROSE**—Blooms Oct. 27th. A rose-lavender reflexed bloom with petal arrangement similar to **TINTS OF GOLD**; erect strong stem and medium size foliage; can be grown close together.
- WHITE CLOUD**—Blooms Oct. 27th. A large white bloom of irregular incurved petals—outer petals white shading to very light canary yellow at center. A general favorite.
- ROMAN GOLD**—Blooms Oct. 27th. A bright yellow reflexed bloom from August bud; from Sept. bud a darker Japanese incurved type.
- SILVER WEDDING**—Blooms Oct. 28th. A pure white bloom, very broad reflexed petals, making a bold handsome flower somewhat resembling a cactus type dahlia. A tall grower and with me the hardiest of large flowering 'mums.
- WHITE CHIEFTAIN**—Blooms Nov. 1st. An incurved pure white large bloom of perfect form; a grand variety; a white sport from Chieftain; holds in fine condition over a long period; a most satisfactory variety with me.
- ROSE PERFECTION**—Blooms Nov. 15th from Sept. 10th bud. A rose-lavender incurved of good substance; an easy grower and a popular commercial variety.
- GLADYS PEARSON**—Blooms Nov. 25th from Sept. 20th bud. A two-toned incurved bloom maturing for Thanksgiving—upper surface of petals apricot, reverse buff, which under artificial light illuminates to bright orange; strong grower.
- YELLOW PEARSON**—The bright yellow sport of Gladys Pearson; will mature an 8-inch bloom for Thanksgiving. Strong grower.
- TOWANTIC**—Blooms Nov. 25th from late Sept. bud. A perfect incurved white ball of great substance; foliage and stem ideal. A long lasting cut flower and popular as a commercial.
- MRS. R. M. CALKINS**—Blooms Nov. 25th from late Sept. buds. An intense bright yellow, globular form, strong grower, large bloom and extra good late variety. Largely grown as a commercial.
- MRS. NELLIE T. ROSS**—Blooms Dec. 5th from Oct. 1st bud; a bright yellow of largest size, incurved form; tall grower; excellent late commercial.
-

Standard varieties that have stood the test of time and are really good,
but a more plentiful supply of plants makes cheaper prices.
15 plants (labelled) for \$1.00 (your selection).

- SMITH'S ENCHANTRESS**—Blooms Oct. 10th from early Sept. bud. Earliest dependable large pink of even shade; a very popular variety; fool proof; and with me the most satisfactory—all points considered.
-

-
- WHITE ENCHANTRESS**—A white sport of the pink Enchantress, and it makes an ideal companion white for Enchantress. It is identical in all other respects.
- EARLY FROST**—Blooms the first few days of Oct. from first bud. The standard very early round pure white; a perfect ball and very dependable.
- YELLOW EARLY FROST**—The yellow sport of the above variety, identical in other respects.
- RICHMOND**—Blooms Oct. 15th to 20th. A perfect ball-shaped golden yellow with long blooming period; with me an outstanding yellow of real merit.
- OCTOBER FROST**—Blooms Oct. 20th from Aug. 30th bud. Tall grower; large pure white bloom; erect growth; an easy doer and handles well.
- MAUDE ROBINSON**—Blooms Nov. 15th. Orchid Color, with reverse of petals silver; incurved. An old standard variety.
- GOLDEN KING**—Blooms Nov. 20th. Large bright yellow bloom with same shade as SUNBEAM; excellent stem and foliage; matures right for Thanksgiving.
- THANKSGIVING GLORY**—Blooms Nov. 25th. A very full incurved flower with petal arrangement somewhat irregular; clear and white with slightly creamy tint; semi-dwarf in growth; bud Sept. 20th.
- HARVARD**—Blooms Nov. 25th. A very attractive grand bloom of Japanese reflexed form, coming just right for Thanksgiving games; erect stiff stems, and a fool proof variety; double from any bud, very dark velvety red—a perfect "Harvard" shade.
- EDW. SEIDEWITZ**—Blooms Nov. 25th. A late variety of perfect incurved form; clear brilliant pinkish lavender.
- DECEMBER GLORY**—Blooms Dec. 1st from Sept. 30th bud. An excellent pure white late commercial variety; petals incurve perfectly; fine stem and foliage.
- WHITE MISTLETOE**—Blooms Dec. 15th. The standard late white mum, grown commercial for the Christmas trade.
- YELLOW MISTLETOE**—The yellow sport of the above—identical in other respects.
- PINK MISTLETOE**—The pink sport of the MISTLETOE—identical in other respects.
- GLADYS WODERSON**—A large reflexed bloom; rosy amaranth in color and holds this color under hot sun; vigorous growth; matures around November 10th. It has a prominent yellow center that contrasts well with the deep amaranth shade of petals.

AMENONE VARIETIES

This class embraces the newer chrysanthemums of "daisy" types. This class only recently originated and has proved quite popular owing to the striking different type of bloom.

15c each or \$1.50 Per Dozen (Labelled; your selection)

- LA NONA**—Blooms Nov. 10th. Large flowered anemone with outer petals rosy amaranth; reverse of petals and center cushion buff. With me the most beautiful anemones I have ever seen.
- BEAUTIFUL LADY**—Blooms Nov. 20th. A striking anemone with outer petals bright pink and the center or cushion creamy white; very distinctive.
- CAPTIVATION**—A late introduction than when grown 1 bloom to stem will produce 7 1-2 inch flower; ray florets mahogany red; cushion 4 inches and same color except extreme ends of quills are tipped with yellow. Matures around Nov. 10th.
-

TRIUMPH—Another anemone of exhibition size—8 inches if grown one bloom per plant; ray florets are golden brown, with a 3 inch cushion of bright yellow. Matures end of October. Largest early anemone grown.

12 1-2 cents each—\$1.25 per dozen. (Labelled—your selection)

BUFF QUEEN—Blooms Nov. 1st. A large anemone with both ray and disc florets buff.

PINK PEARL—Blooms Nov. 25th. An even shade of pink in both disc and ray florets. Handles easily.

IZOLA—Blooms Nov. 1st; both disc and ray florets an even shade of amaranth; may be disbudded or grown to sprays.

CO-ED—Blooms Nov. 15th. Soft pink ray florets with disc yellowish.

GOLDEN PHEASANT—Blooms Nov. 15th. A bright yellow variety that grows naturally to sprays or may be disbudded. Cushion slightly darker shade.

BERNEITA—Blooms Nov. 25th. A beautiful shell pink bloom with perfect white center or cushion. Next to La Nona the prettiest anemone I have grown.

NORMA—Blooms Nov. 20th. Pinkish white guard petals with a yellow cushion; Color intensified by taking late bud.

POMPONS

Various types of pompons—12 1-2 cents each; \$1.25 dozen.
(Labelled—Your Selection.)

PADOKA—An unusually attractive baby pompon; color a light salmon; rather dwarf in growth; matures October 20th; if grown natural makes a most satisfactory specimen of pot plant.

ETHEL—A bright red baby pompon; Height about 2 1-2 feet and matures about Oct. 25th; Color very pleasing; very free flowering and makes an excellent pot plant.

MARGUERITE CLARK—A one-inch rose pink true pompon; free flowering and makes loose and graceful sprays when grown natural; 3 1-2 feet tall; matures early November.

MARY PICKFORD—A pure white that makes a perfect ball one inch in diameter; stiff stem and medium height; matures early November.

DAINTY MAID—The most perfect of all baby pompons, both in form and fullness; Its color a pearly white, with pink shadings from late buds; grows 3 feet high. My choice of the baby pompons in its color.

LILLIAN DOTY—The standard pink large pompon. Its shell pink color and perfect type keeps it a favorite with commercial growers as well as individuals. Should be grown 4 to 6 blooms per plant. Matures early in November.

WHITE DOTY—Similar to above except color.

ROSE DOTY—Similar to above except color is a deep rose.

YELLOW DOTY—Similar to above except color is a clear yellow.

RED DOTY—Similar to above except color is a rich wine red.

ERMALINDA—An old rose color with a silvery sheen; very double and perfect form; flowers about 1 1-2 inches in diameter when slightly disbudded; strong upright growth. Also makes good pot plant; Has done unusually well with me.

SILVER BALL—A fairly recent introduction; pure white and of perfect ball form; when disbudded will produce 3 inch perfect white balls; Earlier than White Doty, maturing late October. Height 4 feet.

MARGOT—A late introduction; claimed to be the earliest really good white pompon; intermediate between large and button pompon types, bloom 1 1-4 inches; rather dwarf in growth; matures by mid-October.

-
- NORINE**--Another fairly recent introduction maturing just right for Thanksgiving; A very bright shade of yellow; individual blooms 1 1-4 inch; Produces excellent sprays.
- BALL OF GOLD**--A later introduction, producing 2 1-2 to 3 inch perfectly round blooms on unusually stiff upright stems. Color is a clear yellow and proved unusually good with me the past season.
- ADELPHIA**--A perfect white ball, maturing late October. Grows tall and disbuds nicely; blooms about 2 to 2 1-2 inches in diameter.
- NEMO**--Not so sure of name, but an unusually attractive pompon consisting of a green gold high-rounded center, with an outer fringe of pure white petals slightly quilled. When slightly disbudded produces blooms about 1 1-2 inches in diameter.
- CHICAGO PEARL**--A fine late white pom; is a good commercial and is usually grown disbudded, may be matured very late.
- DOROTHY TURNER**--A combination of bronze and old gold; 2 1-2 inch blooms; a fine midseason intermediate pommon.
- FIREBIRD**--An early reddish bronze large pompon; blooms 2 1-2 inches; strong growth and productive; disbud or spray.
- SOURCE d' OR**--A large pompon (3 1-2 inches) with a wonderful burnt-orange color; matures early Nov. and very popular.
- REDBIRD**--A small red pompon with bronzy center; very prolific; best as spray; 1 inch blooms.
- JEAN TREADWAY**--A soft pink pompon of the decorative type maturing early October. It has a rosy crimson center that makes the bloom unusually attractive. Grows 3 feet.
-

SINGLES

12 1-2 cents each—¹²⁵~~\$1.50~~ dozen. (Labelled; your selection).

- MELBA**--Still the most striking color in this class that I have seen. A redish bronze or burnt-orange that makes the flower seem to "glow". Matures in early November.
- PINK BUCKINGHAM**--A single of excellent size and habits of growth. The color is a pleasing pastel shade of pink with yellow center. Still a great favorite.
- BRONZE BUCKINGHAM**--The bronze sport of the above popular variety; identical in other respects.
-
